Invention Disclosure Form

Title of Invention

Summary of Invention (briefly describe the Invention and its purpose)

Inventor(s)

List all persons who made a significant contribution to the conception and/or reduction to practice of the Invention. Attach a separate sheet if more than two individuals.

Name	_____	Name	_____
	(first) (middle) (last)		(first) (middle) (last)
Tel. No.	_____	Tel. No.	_____
Email	_____	Email	_____
Street	_____	Street	_____
City	_____	City	_____
State, Zip	_____	State, Zip	_____
Country	_____	Country	_____
Citizen of	_____	Citizen of	_____
Signature	_____	Signature	_____

Date of Invention

Date on which the Invention was:

- (i) first conceived _____
 - (ii) first actually produced _____
 - (iii) first described in writing (attach copy) _____
 - (iv) first drawn(attach copy) _____
 - (v) first disclosed to another person(s) _____
- Name of person(s)
- _____
- _____

Use/Sale/Publication of Invention

1. Has the Invention or a product of the Invention ever been:
 - (i) made or tried experimentally? yes no
 - (ii) trialed in public view? yes no
 - (iii) used commercially? yes no
 - (iv) sold or offered for sale? yes no
 - (v) described in a printed publication? yes no
 - (vi) disclosed to anyone not an inventor? yes no

2. Is the Invention scheduled for sale, use, disclosure or publication? yes no

3. Has the Invention ever been the subject of an agreement with another company, for example, a confidentiality or trial agreement? yes no

4. Did the Invention arise out of an agreement with another party, for example, a joint development agreement, government contract? yes no

If yes to any of the above, give details including dates:

Background Information

Identify any related patents, publications, products or technology known to you.

Detailed Description of the Invention

Use additional sheets and drawings as necessary. The following questions are meant to prompt you regarding key elements of your invention but should not limit your disclosure.

1. Describe the problem that the Invention solves.
2. Describe why the present technology fails to solve the problem.
3. Describe how the Invention differs from present technology.
4. List known competitors or alternate technologies that solve the same problem.
5. Explain the essential parts, steps, or compositional limits of the Invention. *Be specific.*
6. Attach visual aids that would be helpful to understanding the Invention, including drawings, tables, plots, etc. Please explain the visual aid.
7. List any examples of actual practice of the Invention, including laboratory
8. Describe the current preferred embodiment or design of the Invention?
9. Describe alternative embodiments/designs of the Invention.
10. Explain the limitations or disadvantages of the Invention?
11. On additional sheets, provide any other information, which you believe may be helpful in understanding your invention.
